

Quality Policy

PURPOSE AND SCOPE

NZP (an ICE Pharma Company) manufactures and supplies pharmaceutical, nutraceutical, intermediate and diagnostic products for the international market. Our customers rely on us to produce quality products manufactured and released in compliance with regulatory standards and legal requirements.

NZP business growth is achieved through innovation and development of human resources. Quality is at the core of NZP culture and is embodied in the products we manufacture and supply.

At NZP we are committed to:

- Delivering products that meet our customer's needs by promoting customer focus and satisfaction throughout our business.
- Compliance with current Good Manufacturing Practice, ISO certification commitments, regulatory standards, and legal requirements.
- Empowering all people, across the business, to proactively champion quality management.
- Measuring and improving our performance in relation to product quality and interested parties satisfaction.
- Integrating risk management and continuous improvement into our products, services, and Quality Management System.

Senior management are accountable for maintaining our robust Quality Management System and ensuring these commitments are met. This is achieved through documented quality objectives developed and reviewed periodically.
